PREFACE

IN THIS NUCLEAR AGE, architects and engineers throughout the country should have a thorough understanding and knowledge of the fundamentals and newly developed techniques of shelter design and analysis. With this added knowledge and capability, an architect or engineer can provide an optimum degree of fallout protection in any proposed building project with little if any increase in construction cost and without handicapping the primary use of the building.

This National Directory of Fallout Shelter Analysts contains a listing of individuals who, as a minimum requirement, have successfully completed a course in Fallout Shelter Analysis and have been certified as of May 1, 1966.

The tuition-free courses were offered by the Office of Civil Defense at various schools and universities, throughout the country on a semester-type basis or as an intensive 2-week session. The semester-type course was presented one night a week (or on Saturday mornings) for approximately 15 weeks. In addition the course was also offered as a correspondence course by the University of Wisconsin. Subjects such as effects of nuclear weapons, structure of matter, basic physics of nuclear weapons, attenuation of nuclear radiation by structural shielding, shelter criteria and design, biological effects, and environmental engineering were included in the curriculum. Problems and assignments in shielding techniques as well as examinations were given during the course. A series of updating workshops to familiarize the analysts with the latest techniques for analyzing and designing fallout protection were presented in the spring of 1964 and again in the spring of 1966. Those analysts who attended the 1964 workshops can be identified by a dagger (†) preceding their serial numbers. An asterisk (*) indicates attendance at the 1966 workshops.

To be admitted to the course, an applicant must be a registered architect or engineer or hold a degree from a recognized school of architecture or engineering. Those who successfully complete the course are issued a certificate of proficiency bearing a serial number as shown in the directory. They are also placed on OCD mailing lists to receive current information and technical developments in the field of shelter design and analysis.

This directory contains the names of individuals only and not the names of architectural or engineering firms. Many of the individuals listed in the directory are employed by or are consultants to architectural and engineering firms. A listing of firms with qualified shelter analysts on their immediate staff is maintained and periodically issued by the Office of Civil Defense as FG–F–1.3, "National Directory of Architectural, Engineering, and Consultant Firms with Certified Fallout Shelter Analysts."

The listing of qualified Fallout Shelter Analysts is arranged alphabetically. Also included is a listing for each of the eight Civil Defense Regions arranged alphabetically by States. Each State is subdivided into the two following sections:

(1) Fallout Shelter Analysts who are registered professional architects and/or engineers.

(2) Fallout Shelter Analysts who are not registered.

An alphabetical index of shelter analysts and their state of residence is provided at the end of this publication to facilitate location in the directory. Although professional architects and engineers may be registered in States other than their residence, they are only listed in the "registered" section of their resident State. Changes, corrections, or additions should be sent to the OCD Regional Office in which you reside or to the Architectural and Engineering Services Division, Office of Civil Defense, Washington, D.C. 20310.

ADDRESSES OF OCD REGIONS

Architects and engineers interested in participating in the Fallout Shelter Analysis Courses can obtain enrollment forms from their Civil Defense Regional Offices as follows:

Region	*Address*	*States Serviced*
1	Oak Hill Road, Harvard, Mass., 01451	Maine, New Hampshire, Vermont, New York, Massachusetts, Connecticut, Rhode Island, New Jersey, Puerto Rico.
2	Riggs Road, Olney, Md., 20832	Pennsylvania, Ohio, Kentucky, Virginia, West Virginia, Maryland, Delaware, District of Columbia.
3	Pine Tree Blvd., Thomasville, Ga., 31792	Tennessee, North Carolina, South Carolina, Georgia, Alabama, Mississippi, Florida, Canal Zone.
4	Federal Center, 50 North Washington, Battle Creek, Mich., 49016	Minnesota, Wisconsin, Michigan, Illinois, Indiana.
5	Denton Federal Center, TWU Station, Loop 88 Highway, Denton, Tex., 76202	New Mexico, Oklahoma, Texas, Arkansas, Louisiana.
6	Denver Federal Center, Building 50, Sixth and Kipling Sts., Denver, Colo., 80225	North Dakota, South Dakota, Wyoming, Nebraska, Colorado, Kansas, Iowa, Missouri.
7	Fresno Avenue Federal Center, Santa Rosa, Calif., 95401	California, Nevada, Utah, Arizona, Hawaii.
8	21st St. off Norton Ave., Everett, Wash., 98201	Washington, Montana, Oregon, Idaho, Alaska.
